

Discovering Network Topology Project Contribution

Wilson, Aniya, @02972281 - Researched traceroute and multithreading. Mapped Douglass Hall and Armour J Blackburn University Center

Harris, Kaniyah, @02963919 - Researched traceroute and different coding approaches to the problem, as well as testing and debugging the code. Mapped Burr Gymnasium/Burr Offices, Wilbur Thirkield Hall (Physics), Ernest Just Hall (Biology), and the Chemistry Building.

Stewart, Aneika, @03045858 - Developed sub.py and modified the topology tracing. Mapped School of Business and Undergraduate Library buildings. Aided in combining topology fragments.

Abebe, Bethany, @03005444 - Developed topology-tracing and topology-graphing.py, mapped the Lewis K Downing and Undergraduate Library buildings, and combined topology fragments for finalized campus topology.
